

# SOUTHEASTERN & SOUTHWESTERN

Injury Prevention Network (SE&SW)

The Southeastern and Southwestern Injury Prevention Network (SE & SW IPN) offers several opportunities for networking and professional development throughout the year. Trainings are provided by a range of injury and violence prevention professionals, such as practitioners, federal representatives, and researchers from both within the network and across the country. For upcoming events, view our [calendar](#).

Our opportunities cover a variety of injury and violence prevention topics, such as:

- Adverse Childhood Experiences
- Child Maltreatment
- Drowning
- Driving While Intoxicated
- Evidence-Based Practices
- Systems for Safe Sleep
- Drowning
- Falls Prevention
- Injury and Violence Prevention Core Competencies
- Injury and Violence Prevention Success Stories
- Policy Research and Evaluation
- Preparing for Core Funding
- Prescription Drug Overdose Prevention
- Suicide Prevention
- Safe Sleep
- Systems Thinking

## Opportunities for Involvement

### Two Annual Convenings

A 2-3 day Regional Network Annual Meeting is held in the spring. Annual meetings provide learning opportunities about injury and violence prevention practice, allow members to build relationships with each other, and highlight the work of our host state. View past agendas [here](#).

A convening is held each fall during the annual Safe States Alliance meeting. This shorter meeting provides members, and those interested in joining the Network, with the opportunity to create and strengthen professional relationships.

### A Quarterly Newsletter

The *Quill and Pen*, SE & SN IPN's quarterly newsletter, keeps members updated with new research findings, member updates, upcoming opportunities, and program success stories and lessons learned. The newsletter is an opportunity for members to share their own content with the network.

### Webinar Series and Webinar Trainings

The network provides training via annual webinar series. The webinar series topic is chosen by the membership, with the recordings made available online.

Complementary to the webinar series are single webinar trainings. Throughout the year Network members may provide training opportunities to their fellow members based upon an immediate need for information. The recording and meeting minutes from these trainings and our webinar series may be found [here](#).

### Call for SE & SW IVP Fellows

The SE & SW IVP Fellowship Program announces their call for applications in the spring. The Fellowship Program provides undergraduate and graduate students the opportunity to receive team mentoring from IVP professionals and gain hands-on experience in developing programmatic activities and content. Fellows receive a stipend for their work. Learn more [here](#).
